

Thanks for joining the PAT Performance Based Contracting (PBC) Work Group

April 8, 2021

Please make sure your first and last name show on your video
(click on the upper right corner 3 dots of your picture and rename yourself)
and if you've called in your phone number is associated with your video.

*Please chat in your name and organization and
one thing you LOVE about Spring while we wait for all to connect .*

Today's Agenda

1. Introduction
2. Review/Discuss More Findings from Caregiver Surveys
Compare with Home Visitors' Input
 - *Why Caregivers Participate*
 - *Impact of PAT*
 - *Activities supporting Parenting/Parent-Child Relationships*
 - *Activities supporting Caregiver Well-Being*
3. Next Steps
4. Check-in/Reflection

1. Introduction and Check-in

- Welcome
- Today's purpose and parameters
- Workplan review

Today's Purpose

- Continue learning and reflecting on the caregiver survey findings
- Reflect on cohesion and dissonance with home visitor findings
- Set the stage for narrowing outcomes?

Parameters

- Today is a mix of listening and discussion
- **Please use the chat frequently** to help us stay connected to you
- If comfortable, please **unmute and use video** for a fuller dialog in small groups
- Please stay engaged, especially during small group time so we can hear your thoughts

Work Group Schedule/Topics *continued to modify to a workable pace*

Month	Anticipated Agenda Topics
August	Orientation & Caregiver/Home Visitor Engagement Planning
September	Engagement Planning & Study Measurement Tools
October	Reflect on Input from Caregivers/Home Visitors & Study Measurement Tools
November	Reflection on Tools Discussion & Plan To Pilot Measurement Tool(s)
January	Reflection on Input from Home Visitors Discussion of Caregiver Input Process
March	<i>Learning:</i> Input from Caregiver Surveys – compare to Home Visitor Input
 April	Continued Learning and Reflection: Input from Caregiver Surveys <i>Narrowing to Decision?</i> PAT Precise Outcome
May	<i>Learning:</i> Input from Caregiver Surveys & Reflect on Outcomes and Activities <i>Decision Point: PAT Precise Outcome</i> Plan for FY22 Contract Elements/Milestones Discussion Measurement/Tools and Steps for Piloting
June	Communicate/Integrate PBC Elements Of SFY22 Contract

2. Caregiver Survey Results

- Process Description
- Why Caregivers Participate in PAT
- Most Meaningful PAT Outcomes (*pre Covid and now*)

Process - PAT Caregiver Survey

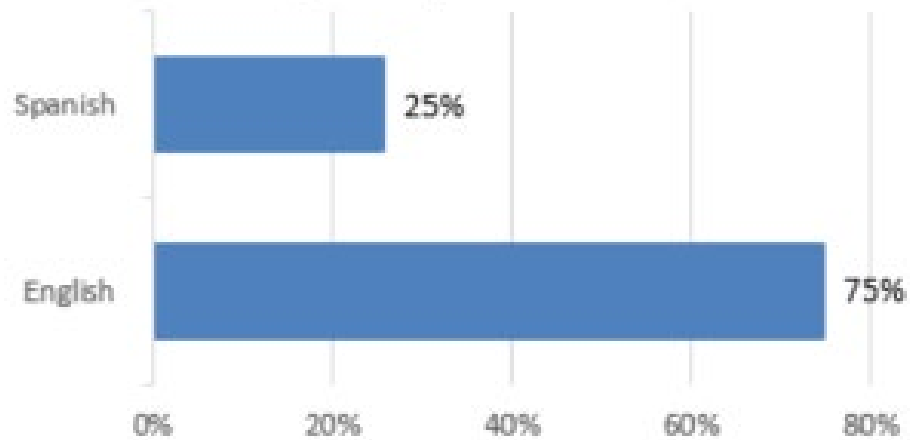

- **208 Responses**
- 190 Electronic (Survey Monkey) and 18 Paper Responses
- 165 English and 43 Spanish Versions
- 17 of 21 PAT Programs (*1-32 responses*)
38% from eastern WA; 62% from western WA organizations

PAT Caregiver Survey Respondents

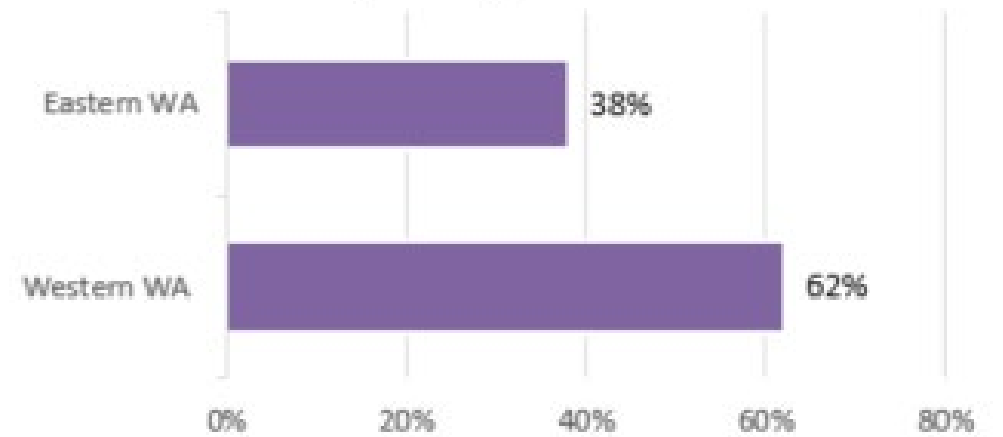

- 50% of respondents were in the program between 1 and 2 years
 - More than half currently have children between the ages of 2-4 years old
 - 72 (35%) of responses indicated Spanish is their primary language at home
 - 1/3 caregivers were caring for 1 child, another 1/3 were caring for 2, and over 30% were caring for 3 or more (only 2% were pregnant)
-

Caregiver Survey: By Language and East-West WA

Surveys Submitted by Spanish-English
(n=208)

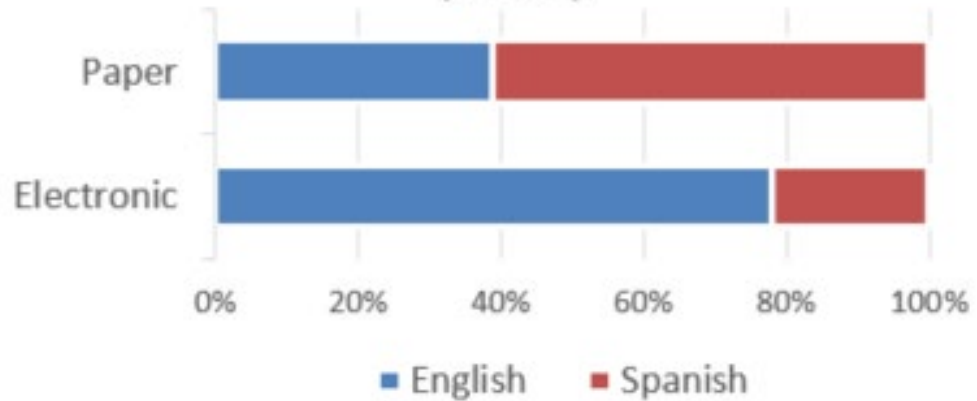

Surveys Submitted by East-West WA
(n=208)

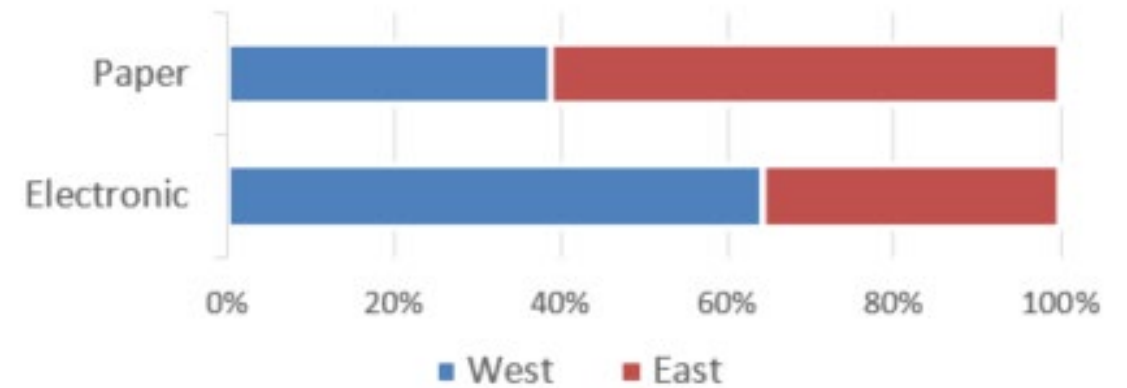

Caregiver Survey: Electronic or Paper: By Language and East-West WA

Electronic or Paper Submission by **Language**
(n=208)

Electronic or Paper Submission by **East-West**
(n=208)

Home Visitor Engagement

Focus Groups and Team Meetings

- 5 team meetings and 2 interagency focus groups (*September-October*)
- 45 participants (7 supervisors, 2 data people, and 36 home visitors)
- 10 HVSA funded programs

Surveys *November 2020*

- On-line Survey (*December*)
- 21 respondents: home visitors
- 10 HVSA funded programs

Why Do Caregivers Participate in PAT?

Caregivers: Top 3 Reasons for Participating in PAT

Top 3 Reasons in PAT (may choose 3, n=208, duplicates allowed)

Why Parents/Caregivers Participate in PAT

Caregivers Views

- Improve parenting skills
- Ideas on activities to do with my child
- Learn more about my child's development
- Improve parenting knowledge
- Have someone who will listen and support me
- Be more confident in my parenting abilities

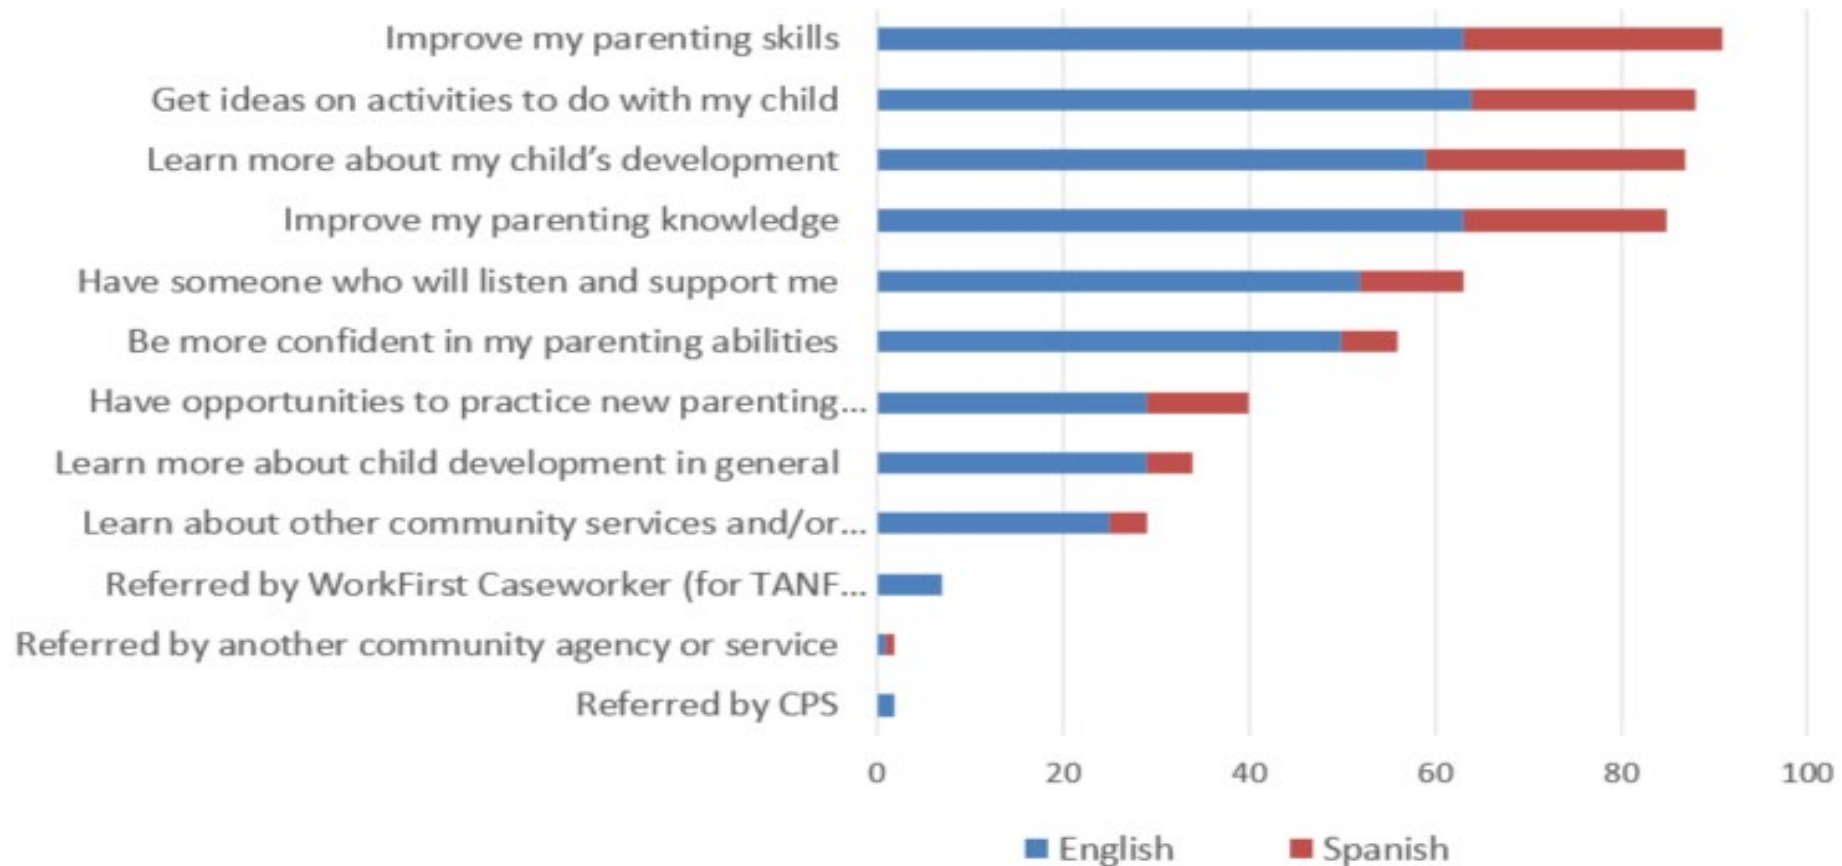

>20% of respondents

Home Visitors Views

- Learn more about child/child development
- Listening ear/ nonjudgmental support
- Relationship/ reduce isolation
- Connections to resources
- Gain confidence in parenting
- Incentives

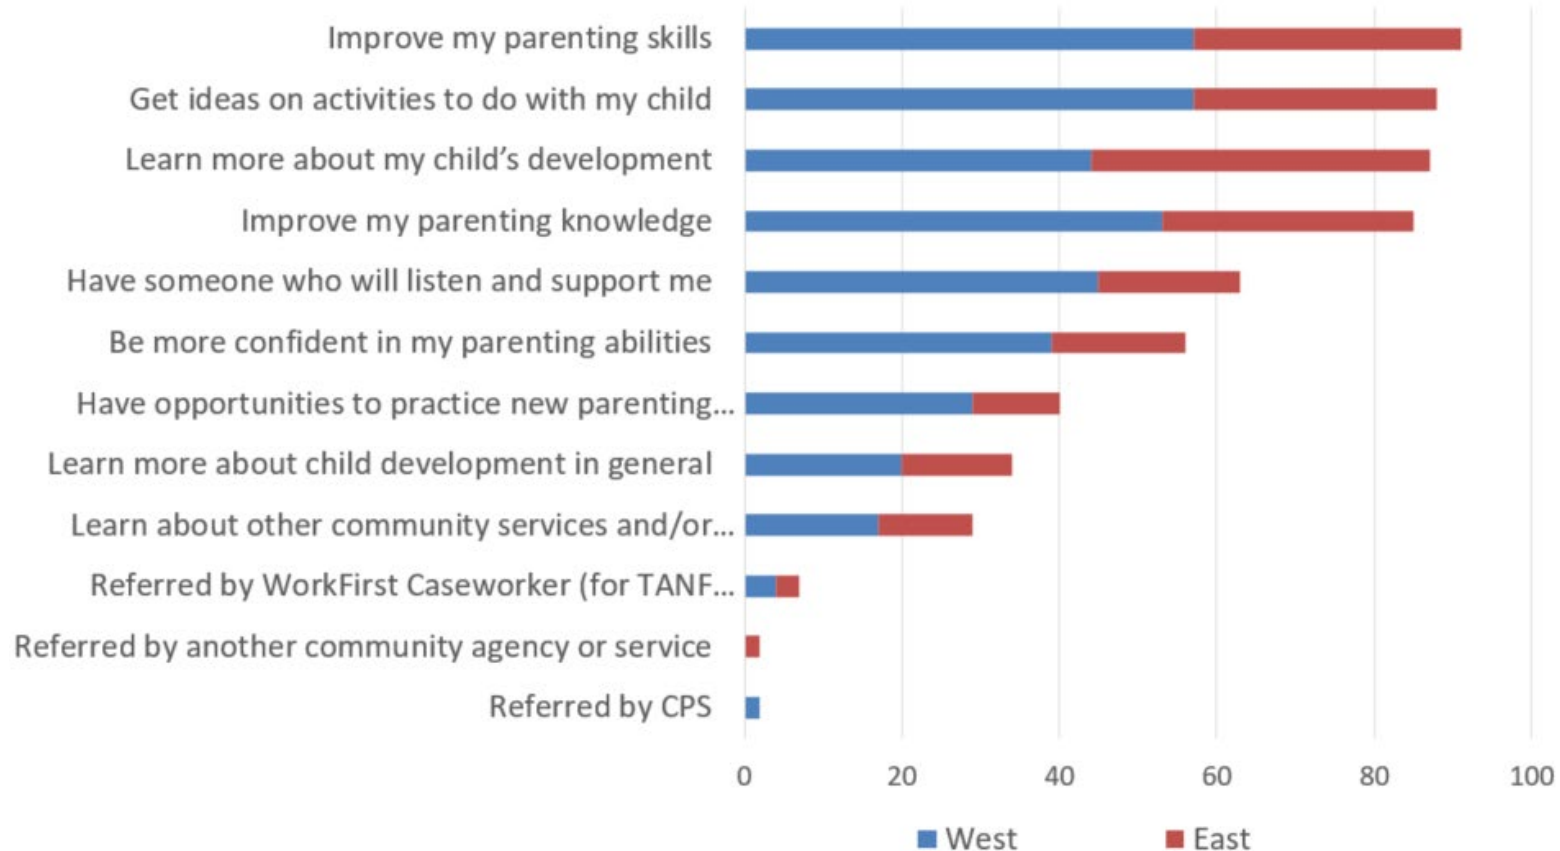

Top 3 Reasons for Participating in PAT – *by Language*

Top 3 Reasons in PAT By Survey Language (choose 3, n=208, duplicates ok)

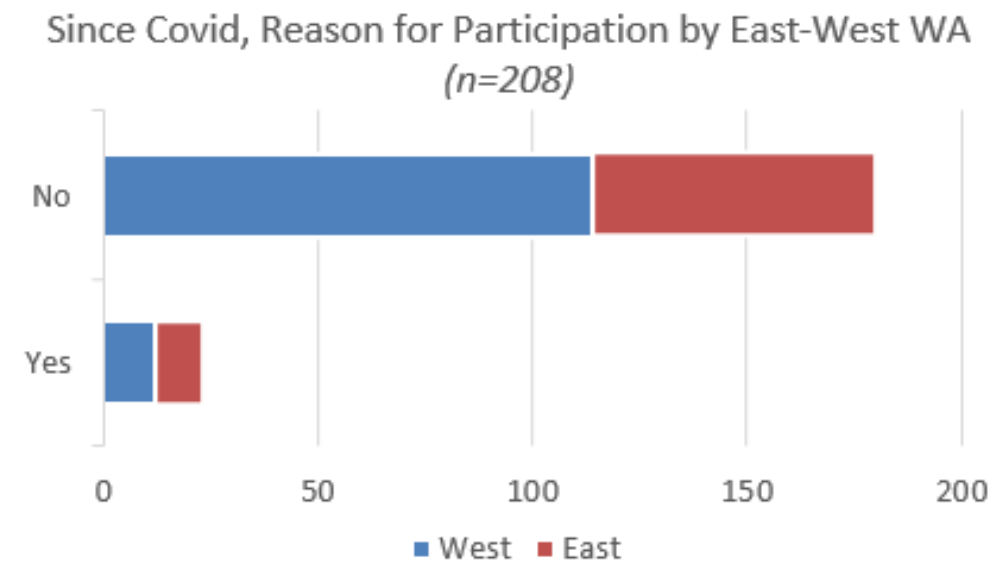

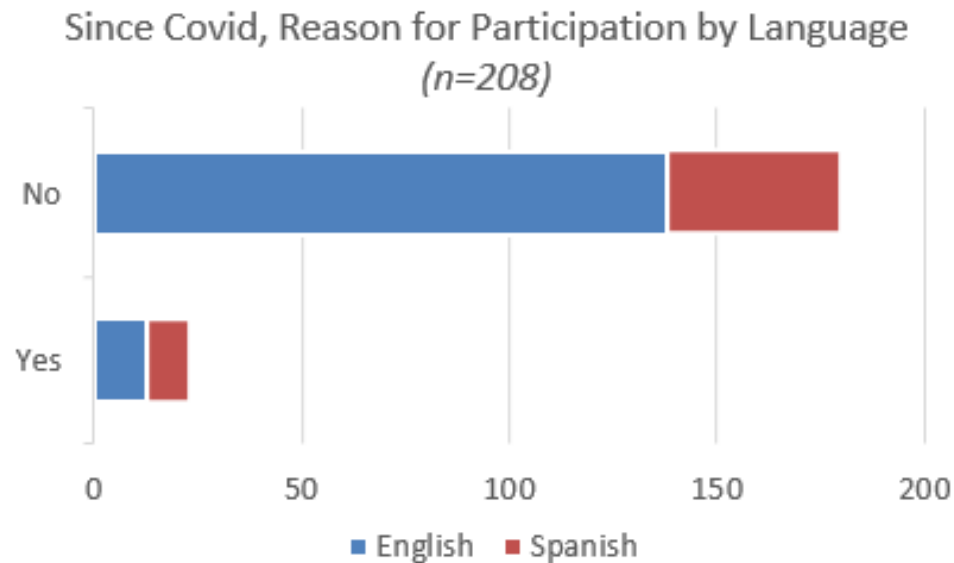

Top 3 Reasons for Participating in PAT – *by Language & East-West*

Top 3 Reasons in PAT By East-West WA LIA (choose 3, n=208, duplicates ok)

Caregivers: COVID Impacts on Reasons for Participating?

- Overall, 87% (180) of respondents said their reason for participating in PAT had **not changed** from before COVID-19

Small Group Discussion

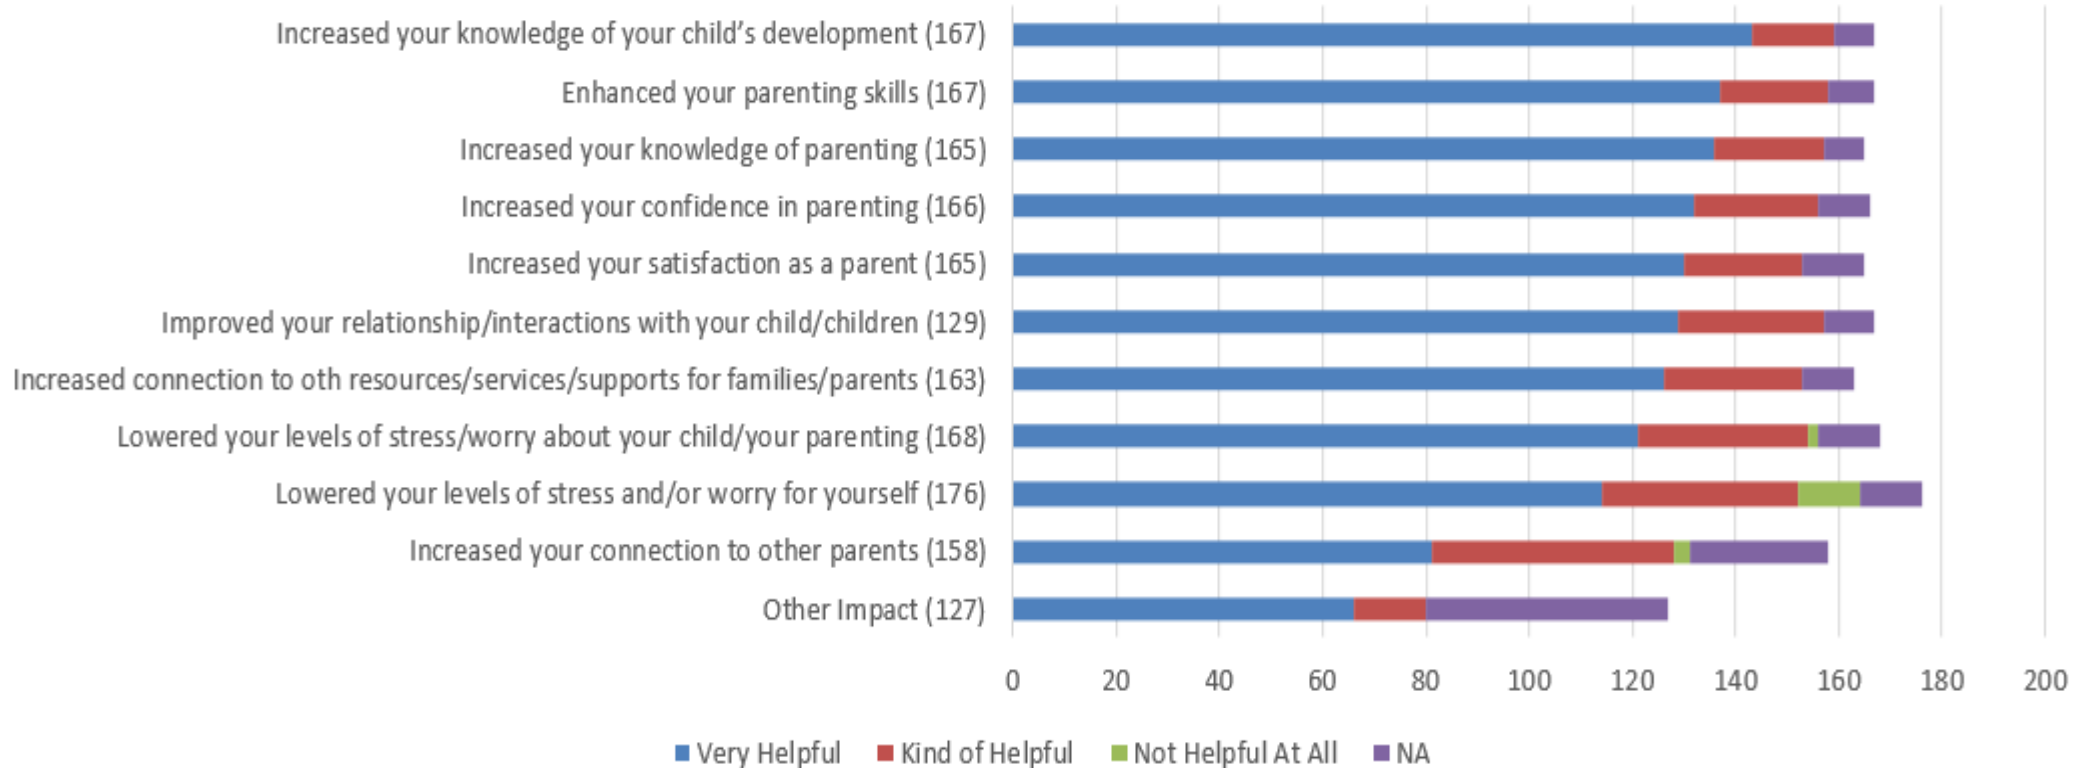

- How do these findings resonate with your experiences?
- What meaning do you make from these early findings?
- What alignment and divergence do you see between home visitors' and caregivers' responses?

Impact of PAT

Caregivers: How Helpful Pre-Covid

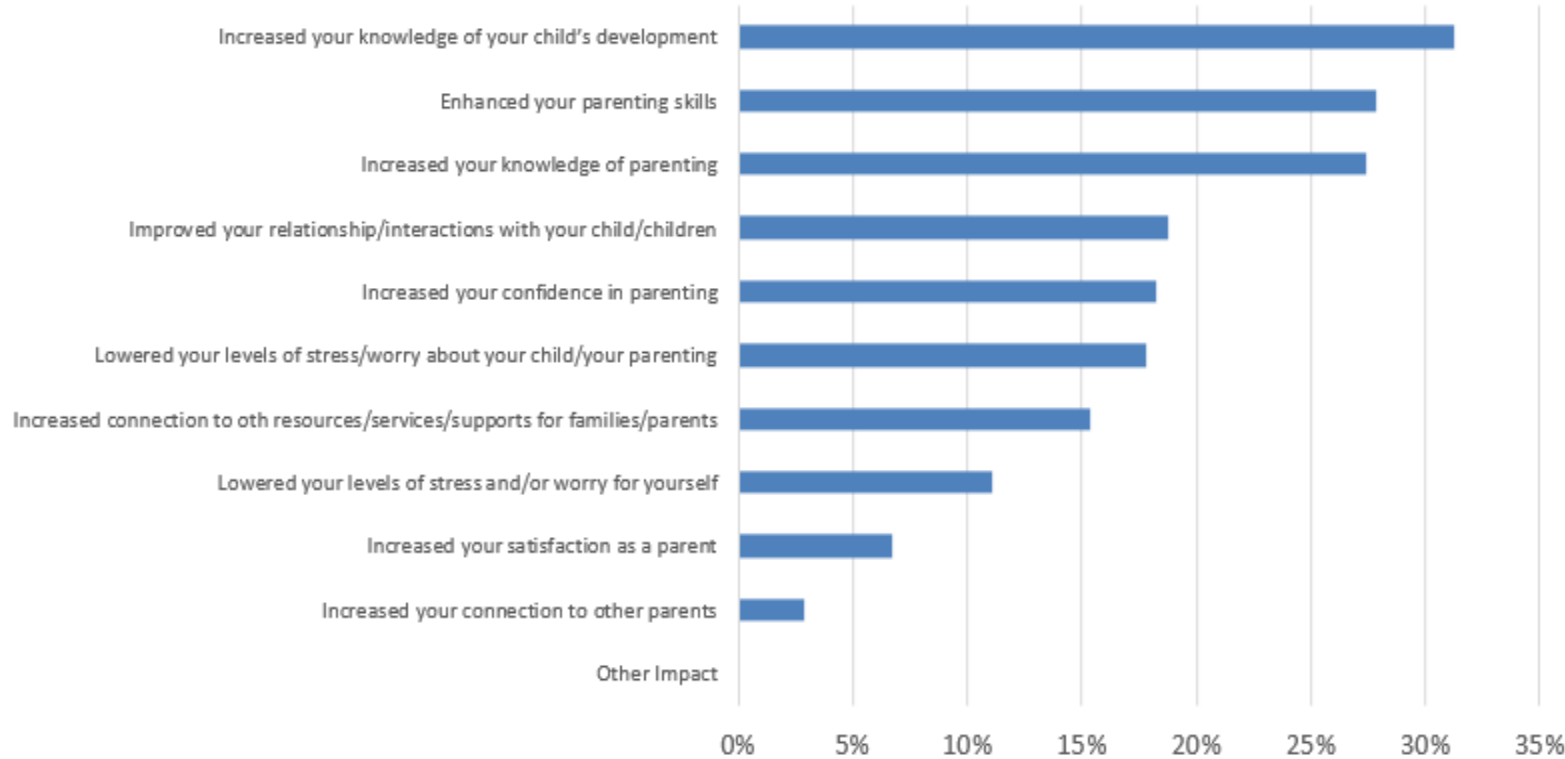

Helpfulness of PAT on Following Topics, before Covid-19

(sorted on # very helpful)

Caregivers: How Helpful? Respondents' Top 2 (before COVID)

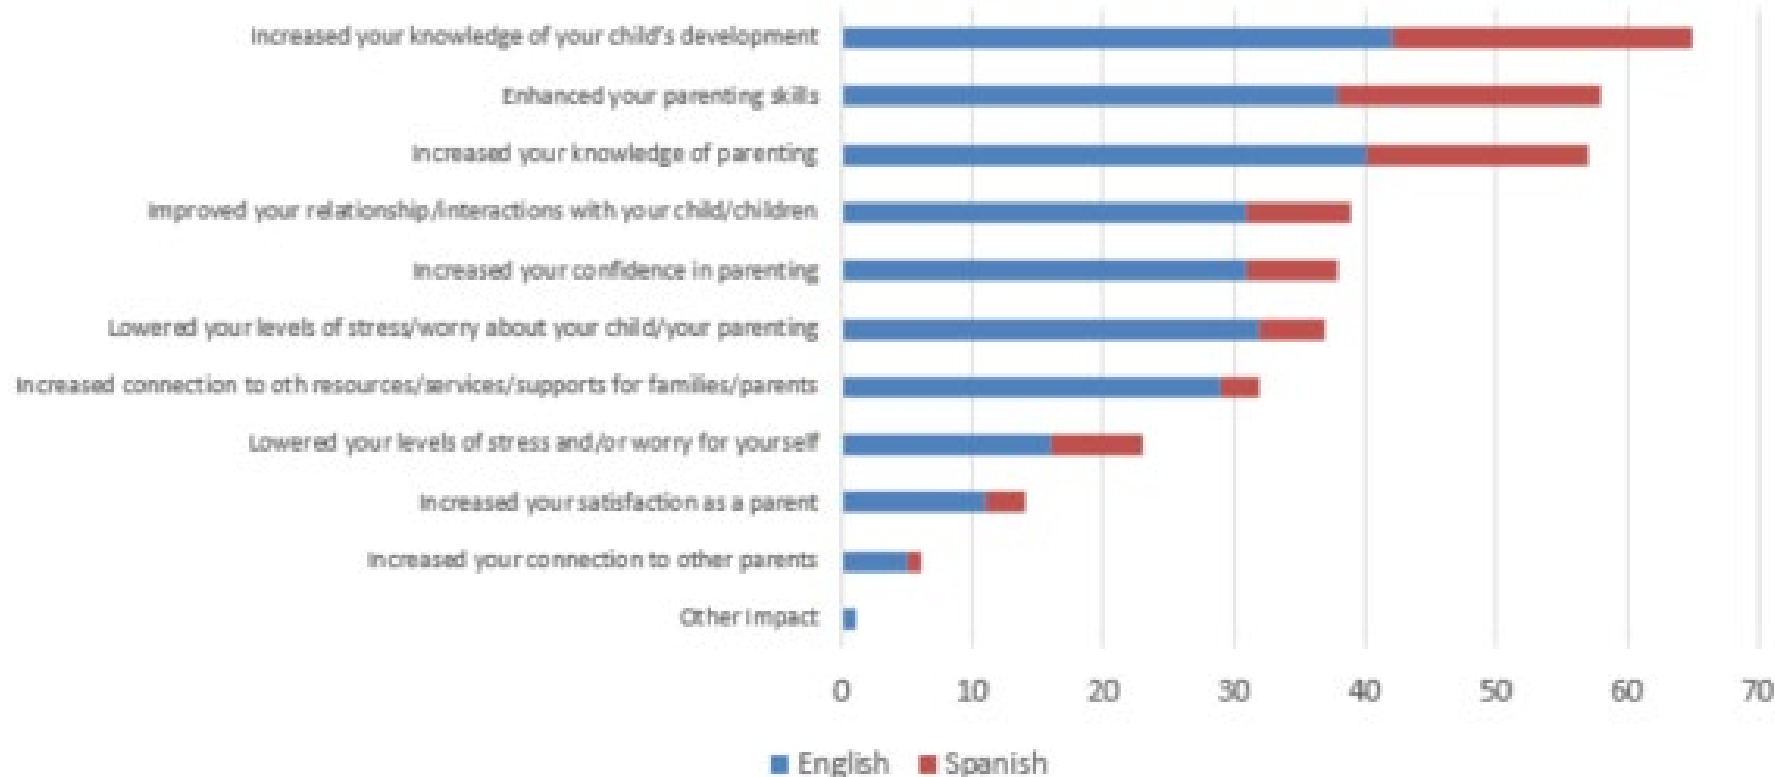

Before COVID-19, Top 2 Areas PAT Helped the Most
(may choose 2, n=208, duplicates allowed)

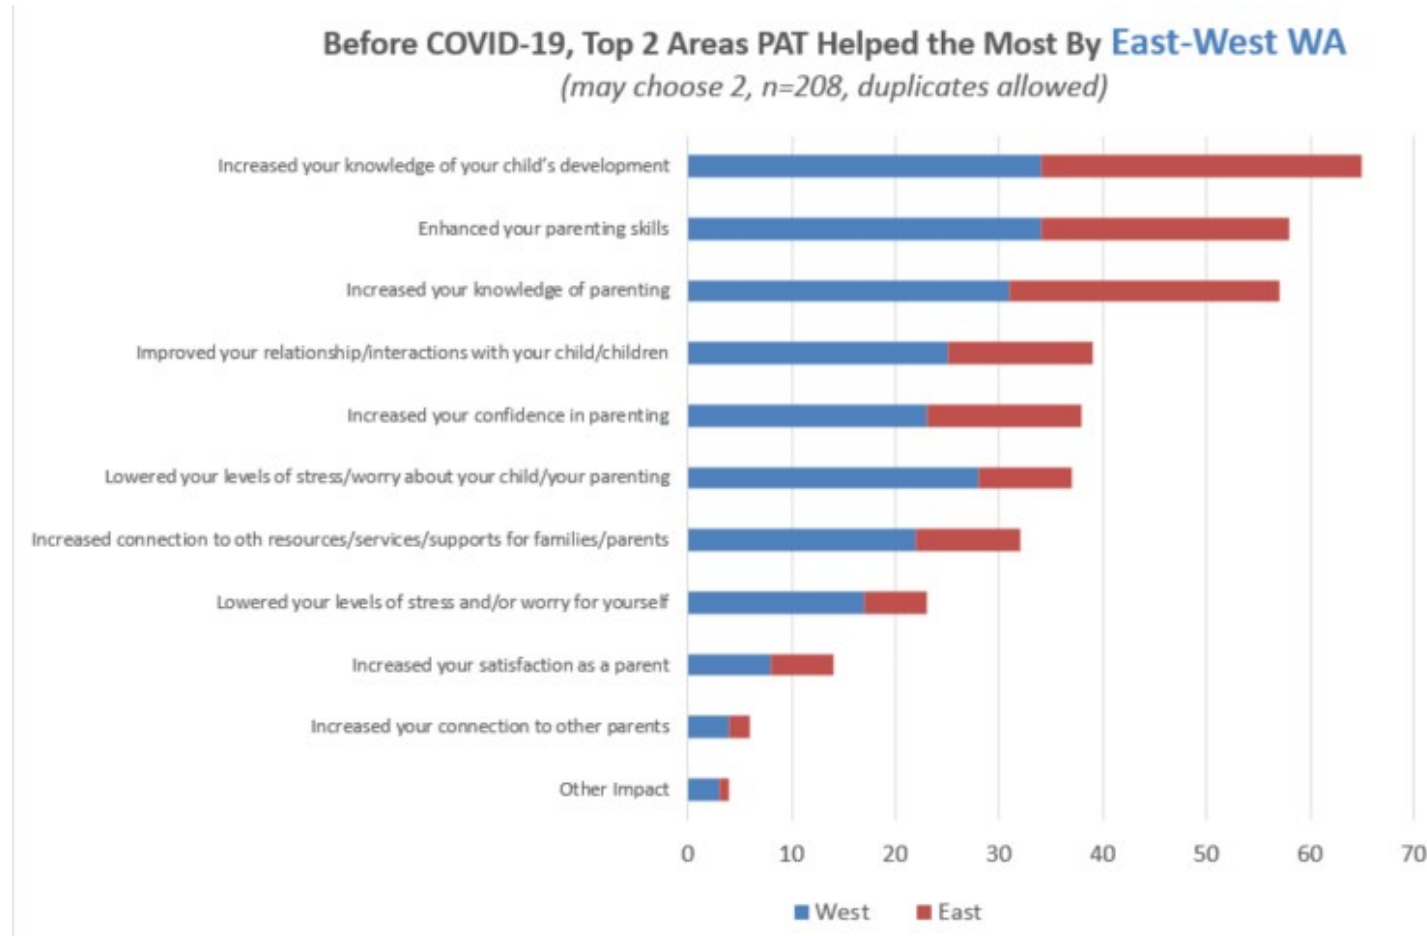

- Increased knowledge of your child's development
- Enhanced parenting skills
- Increased knowledge of parenting
- Improved relationship/interactions with children
- Increased confidence in parenting
- Lowered stress/worry about child/parenting
- Increased connection to family resources, services, supports

Caregivers: How Helpful? Top 2 (Pre-COVID) by Language

Before COVID-19, Top 2 Areas PAT Helped the Most **By Language**
(may choose 2, n=208, duplicates allowed)

Caregivers: How Helpful? Top 2 (Pre-COVID) by East-West WA

Home Visitors: Top PAT Impacts

Survey (before COVID-19)

- Interactions/relationship with the child/children
- Confidence in parenting (parent validation)
- Knowledge of child development

Survey (During COVID-19)

- Reduced levels of stress and/or anxiety about child/parenting
- Interactions/relationship with the child/children
- Connection to family and parenting supports
- Reduced levels of stress and/or anxiety for self
- Parenting skills/efficacy as a parent

Focus Groups - additional impacts (no Covid-19 reference):

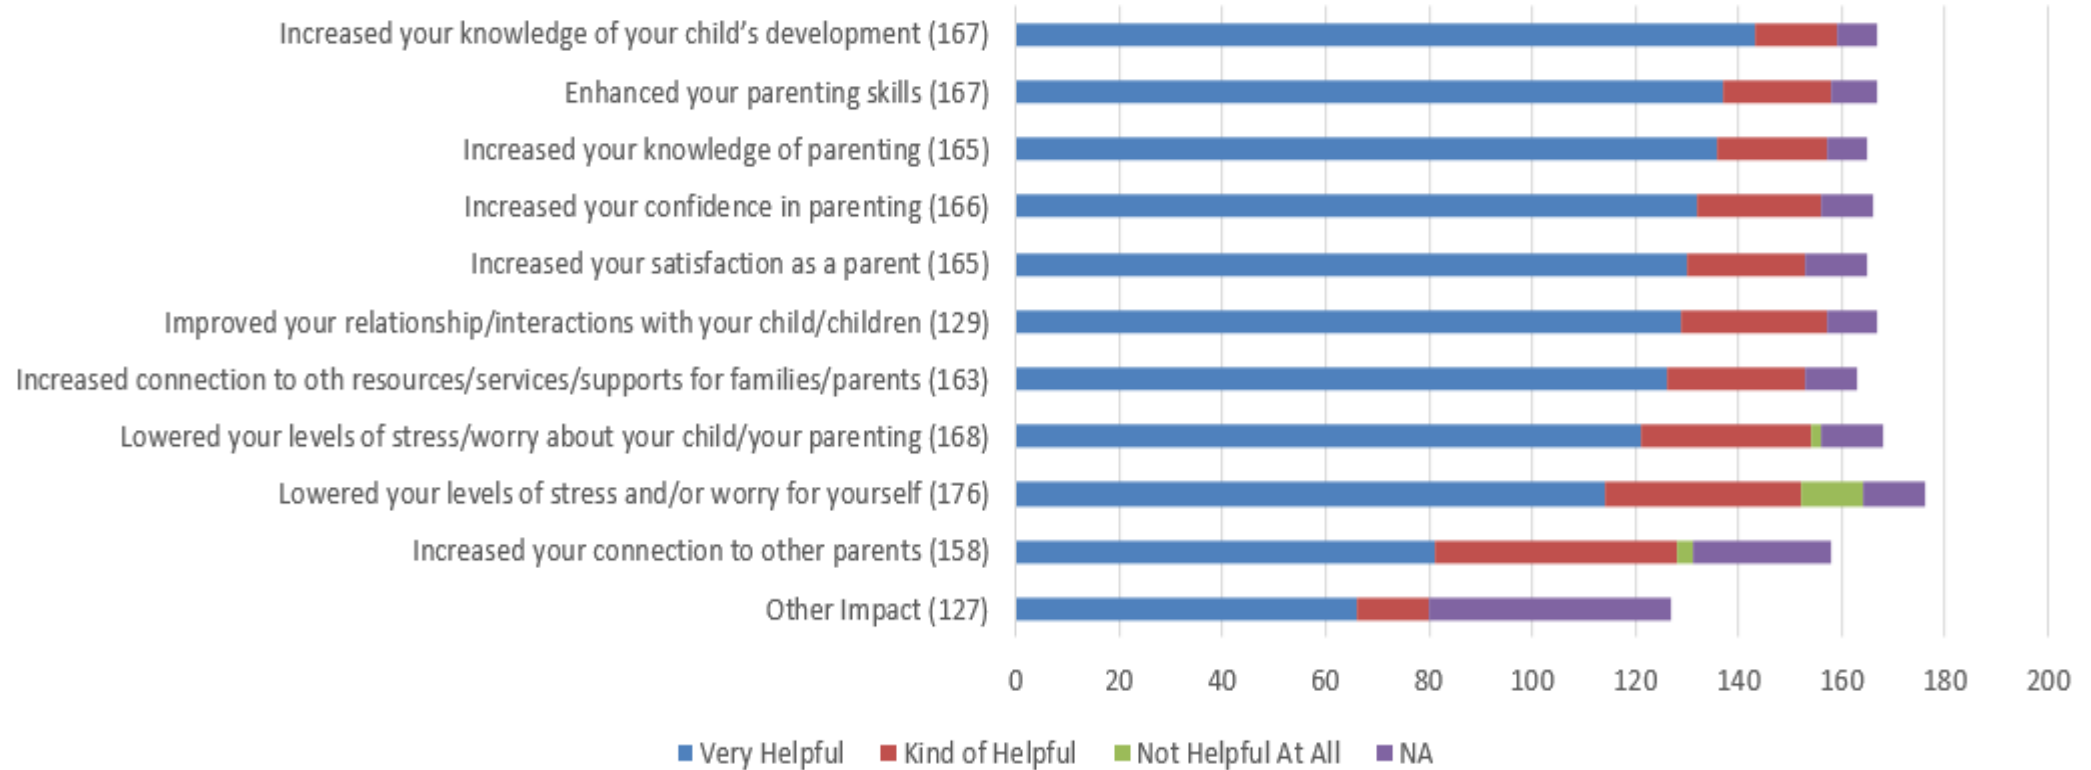

- Parenting skills and tools
- Relationship, trust, connection, attuned interactions
- Mental health supports
- Stress or worry about parenting
- Caregiver mental health

Small Group Discussion

- How do these findings resonate with your experiences?
- What meaning do you make from these early findings?
- What alignment and divergence do you see between home visitors' and caregivers' responses?

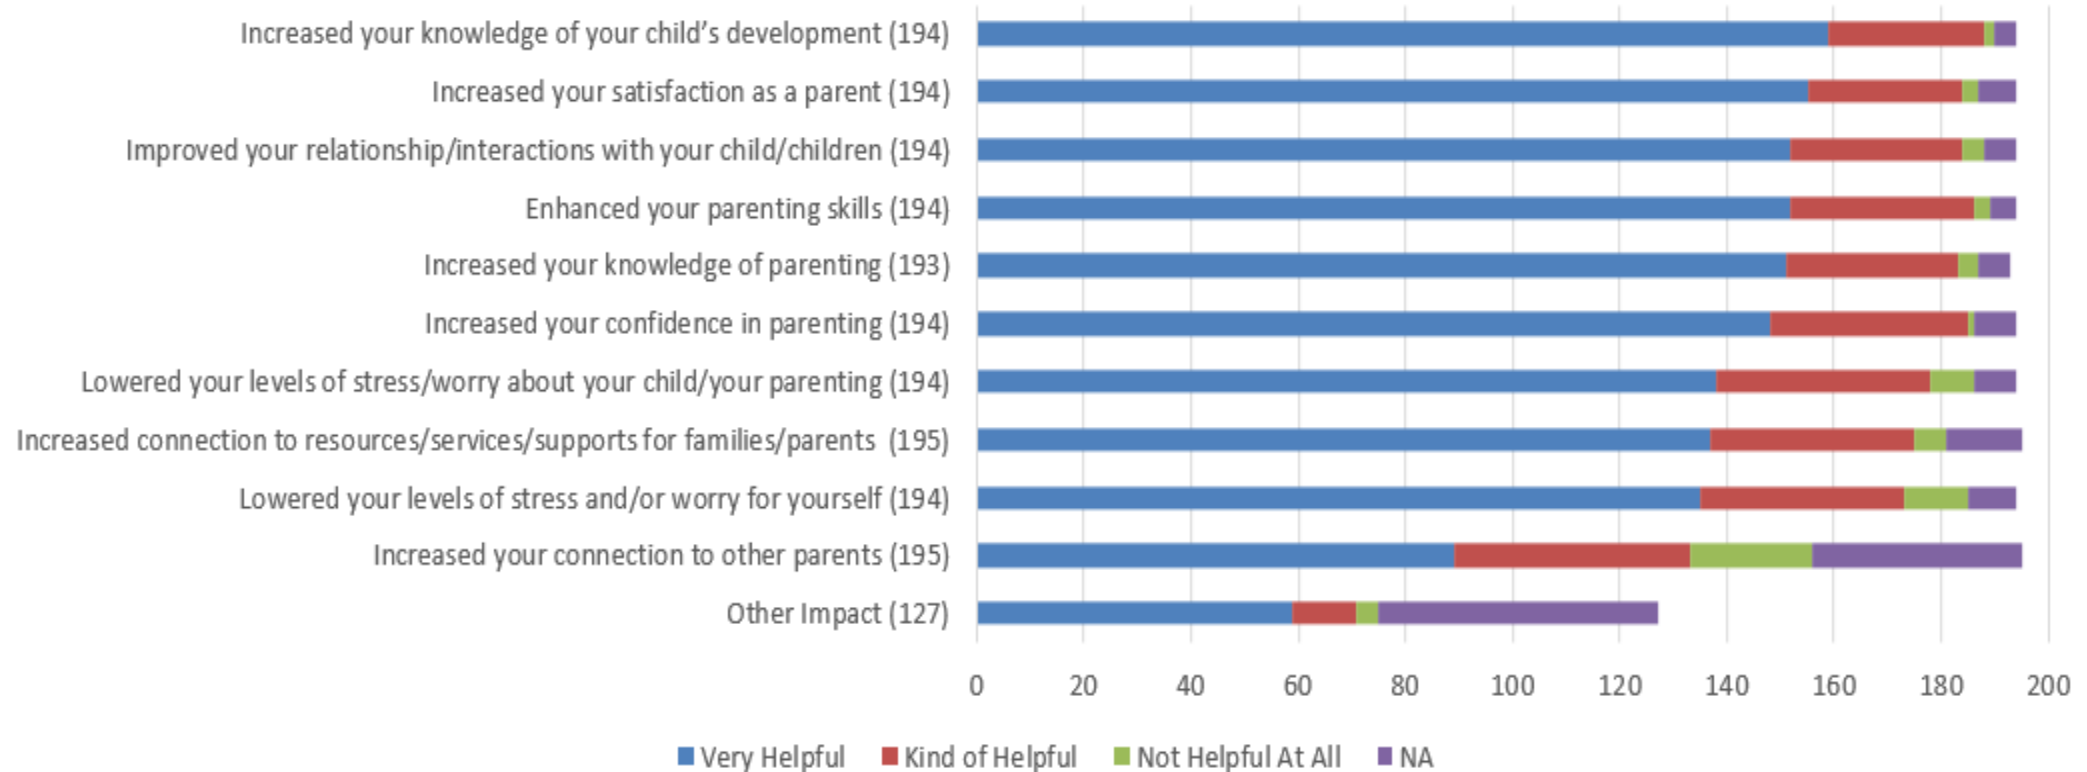

Caregivers: How Helpful PreCovid

Helpfulness of PAT on Following Topics, before Covid-19
(sorted on # very helpful)

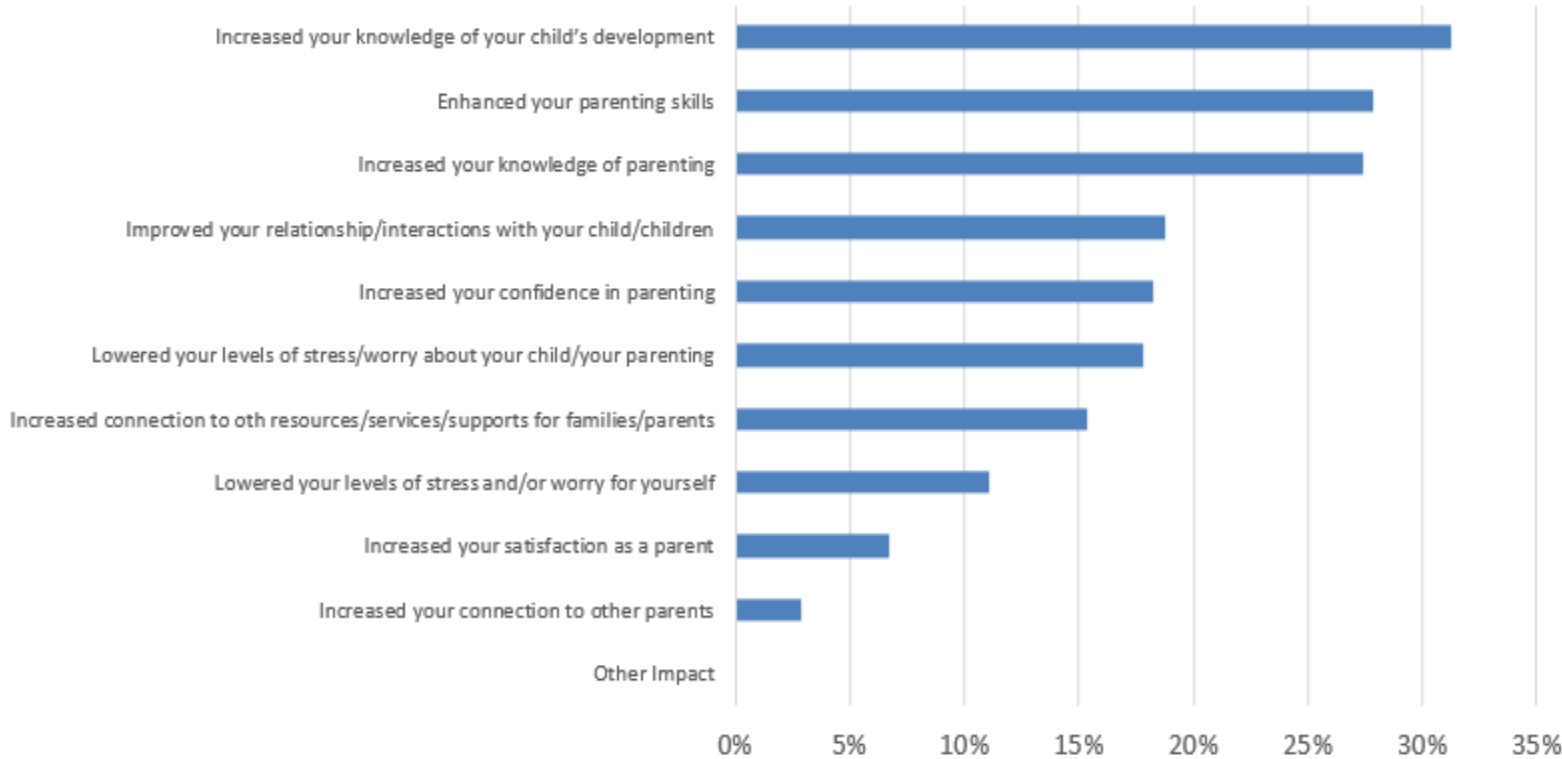

Caregivers: How Helpful During Covid

Helpfulness of PAT on Following Topics, during Covid-19
(sorted on # very helpful)

Caregivers: How Helpful? Respondents' Top 2 (before COVID)

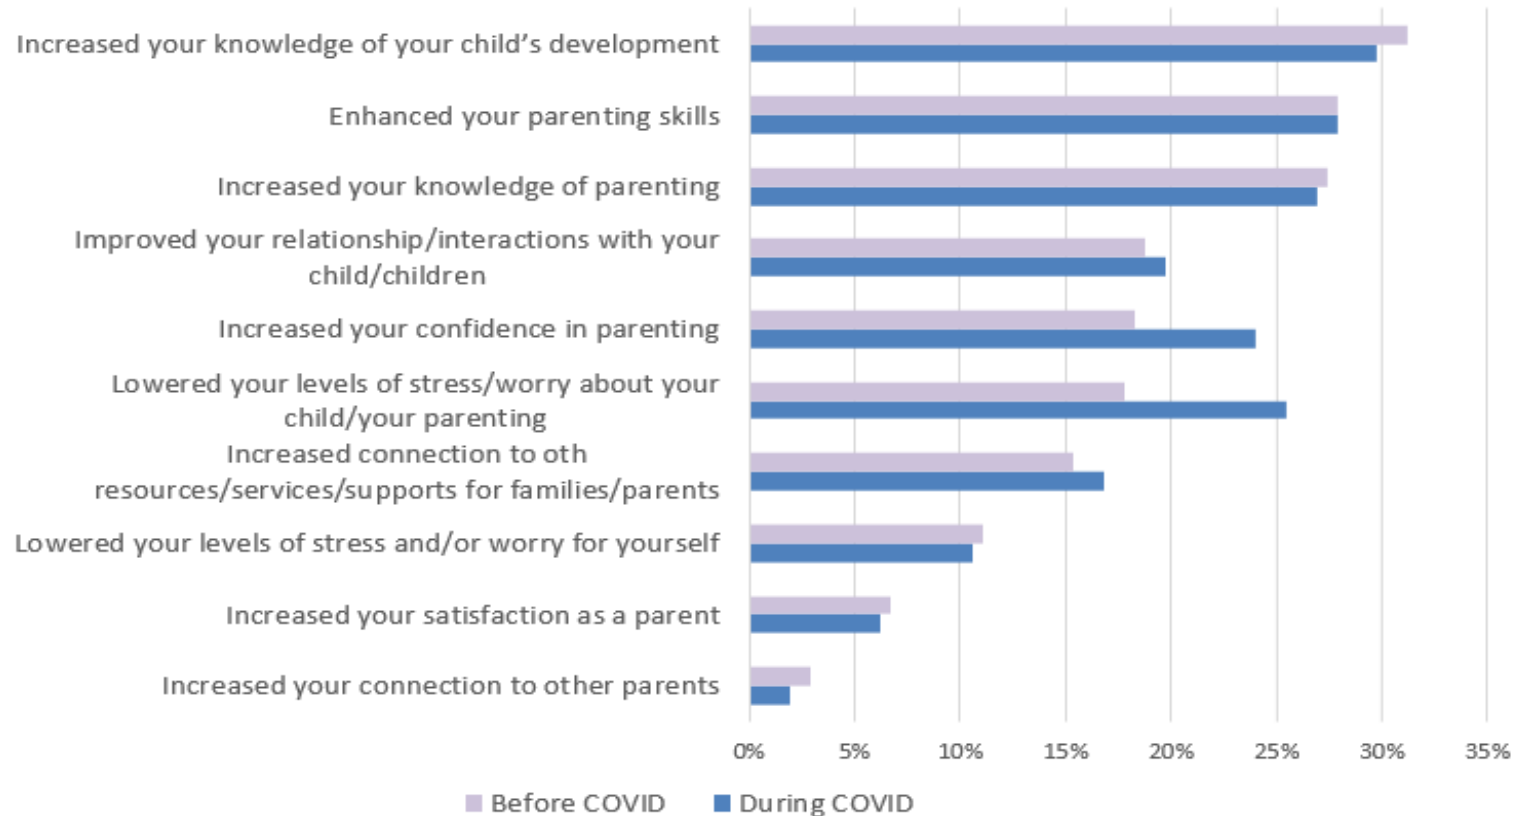

Before COVID-19, Top 2 Areas PAT Helped the Most
(may choose 2, n=208, duplicates allowed)

- Increased knowledge of your child's development
- Enhanced parenting skills
- Increased knowledge of parenting
- Improved relationship/interactions with children
- Increased confidence in parenting
- Lowered stress/worry about child/parenting
- Increased connection to family resources, services, supports

Caregivers: How Helpful? Respondents' Top 2 (before & during COVID)

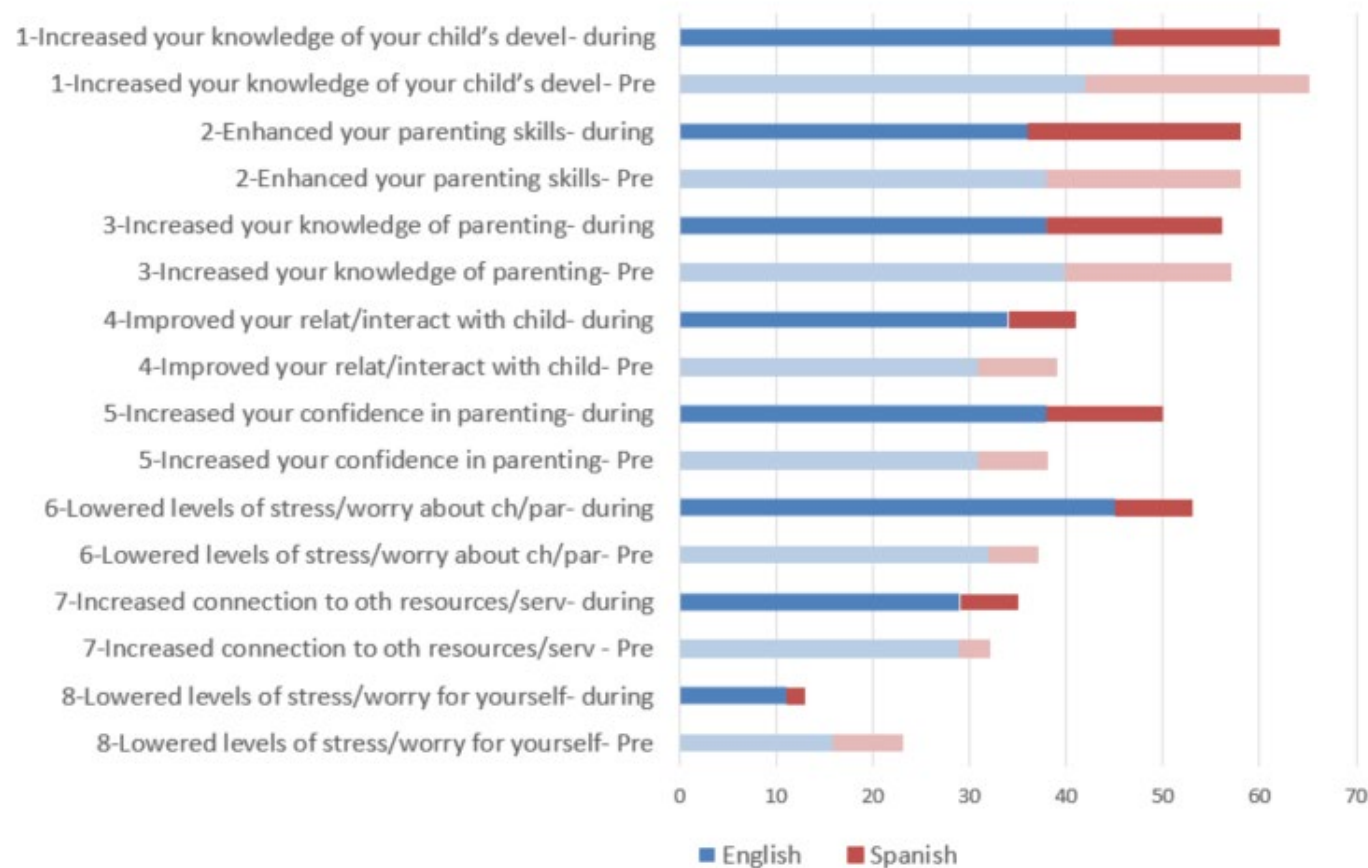

Before and During COVID-19, Top 2 Areas PAT Helped the Most
(may choose 2, n=208, duplicates allowed)

Caregivers: How Helpful? Respondents' Top 2 By Language

Before/During COVID-19, Top 2 Areas PAT Helped the Most By Language

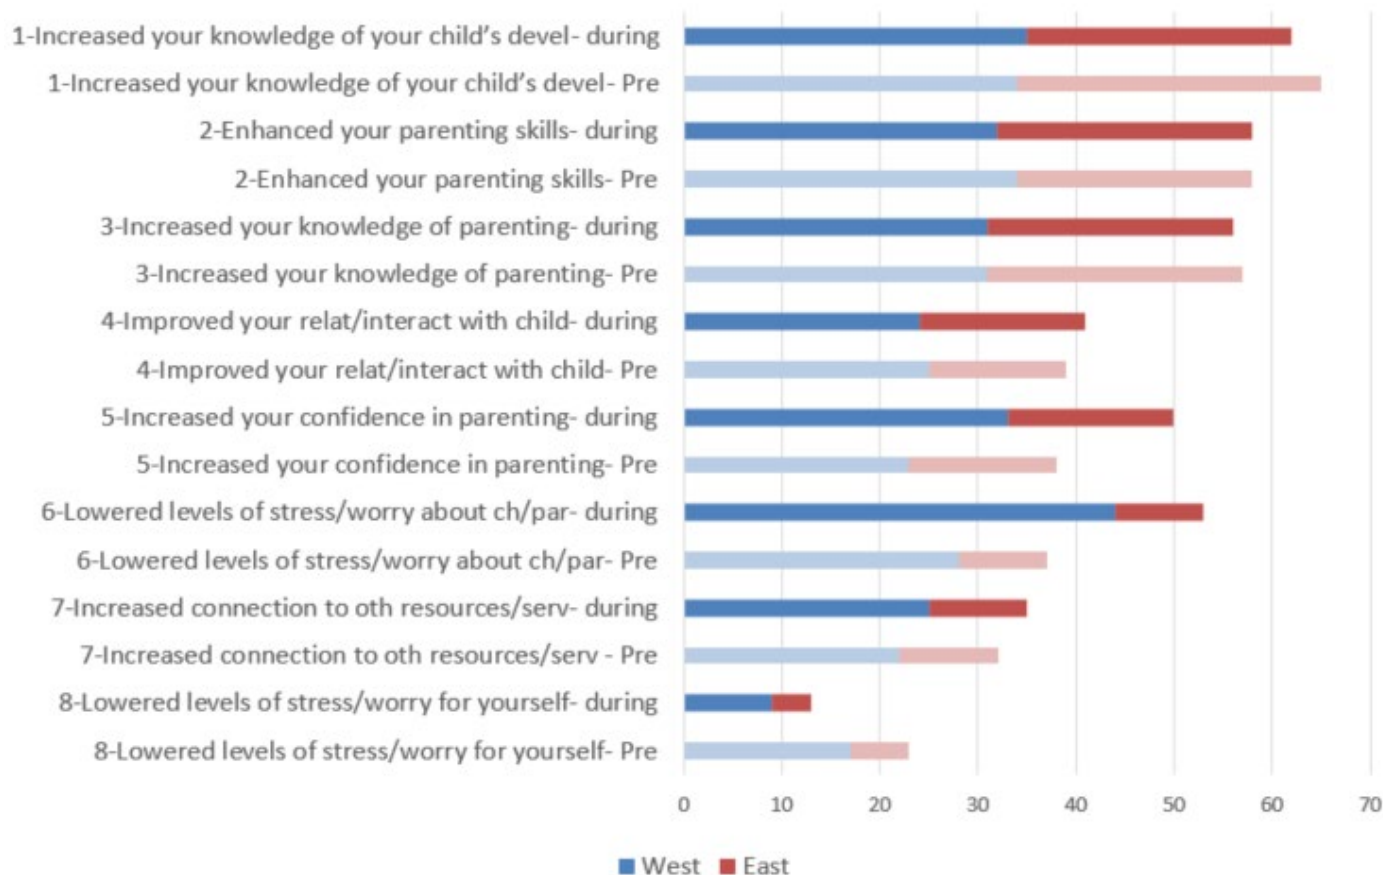

(may choose 2, n=208, duplicates allowed)

Caregivers: How Helpful? Respondents' Top 2 by East-West WA

Before/During COVID-19, Top 2 Areas PAT Helped the Most By **East-West WA**

(may choose 2, n=208, duplicates allowed)

Home Visitors: Top PAT Impacts

Survey (before COVID-19)

- Interactions/relationship with the child/children
- Confidence in parenting (parent validation)
- Knowledge of child development

Survey (During COVID-19)

- Reduced levels of stress and/or anxiety about child/parenting
- Interactions/relationship with the child/children
- Connection to family and parenting supports
- Reduced levels of stress and/or anxiety for self
- Parenting skills/efficacy as a parent

Focus Groups - additional impacts (no Covid-19 reference):

- Parenting skills and tools
- Relationship, trust, connection, attuned interactions
- Mental health supports
- Stress or worry about parenting
- Caregiver mental health

Small Group Discussion

- How do these findings resonate with your experiences?
- What meaning do you make from these early findings?
- What alignment and divergence do you see between home visitors' and caregivers' responses?

Large Group Discussion

- Small Group Discussion
- Does this help us move in a more narrow direction on determining an outcome?

Caregiver Survey Analysis to Come *(open-ended questions)*

- Reasons caregivers continue in PAT and understanding the impact of Covid on those reasons
 - Why the top outcomes were meaningful to caregivers
 - Analysis of and examples of parent educators' activities that support parenting
 - Analysis of and examples of parent educators' activities that support well-being
 - Participants views on approach to screening
-

4. Next Steps

- More Caregiver Survey Findings (*open-ended questions*)
- Discussion on Outcomes – Narrowing and Refining
What additional information do you want to support our outcomes discussion?
- Revisit Measurement
What additional information do you want to support our measurement discussion?

5. Check-In/Reflections

Please chat or voice in

- *1-2 takeaways from today's meeting?*
- *Unanswered questions?*
- *How can our meetings be improved?*

THANK YOU!!!
